

Yearbook expectations:

Coaches are required to have team photos taken by Lifetouch for all of your teams (Varsity, JV, JVII, Frosh). Photo schedules are set up by Lifetouch in conjunction with the school and we try to accommodate practice schedules as best we can. These dates are important and cannot be missed because the photos are given to the Yearbook staff to meet their deadlines, as well as provide a photo to the students and parents.

Coaches are expected to give a summary of their season to the yearbook staff within two weeks after your season ends. The Yearbook staff generally communicates with coaches towards the end of the season and asks for you to either meet with the student personally or answer questions digitally and return them. It is important for the yearbook staff to get an accurate record of the season for each team and your input is a necessity. If you do not provide contact information for the JV/Frosh teams then you are expected to answer the questions for those teams as well.
